CONDITION OF THE MARKETS

TERO. P. HAUGHEY, Pres't. E. E. REKFORD, Cas

Government Crop Report Proves an Immense Bull Factor at Chicago.

Wheat and Corn Make an Excited Advance of 4 Cents-Oats Decidedly Higher-Hog Products Somewhat Stronger.

MONEY, STOCKS AND BONDS.

Successful Bear Raid Causes Heavy Declines Throughout the List, NEW YORK, Sept. 11.-Money on call was

tight, ranging from 4 and interest to 6 per cent., the last loan being made at 6, closing offered at 6 per cent. Prime mercantile paper, 7@9 per cent.

Sterling exchange active and steady at \$4.8112 for sixty-day bills and \$4.8434 for demand.

The total sales of stocks to-day were 340,-570 shares, including the following: Atchison, 16,685; Delaware, Lackawanna & Western, 11,780; Louisville & Nashville, 7,200.

The stock market to-day was unusually active, but the increased business was obtained at the expense of values in all portions of the list, and material losses were suffered in all the active shares. There was to-day an undoubted full liquidation of small marginal accounts, for which the only inducement was the scarcity and high rates exacted for money, and the shifting of loans occasioned by the calling in of money loaned at lower rates brought considerable long stock on the market. At the same time, the "bears" were again very prominent in getting prices down, and made a special point of the poor showing of the government crop report, and the granger stocks suffered to a marked extent, but not more than other stocks which are not to be affected to such an extent by the scarcity of corn and wheat to haul. The money market was undoubtedly a great disappointment to smaller bulls at least, and the rate on call having gotten up to 4 per cent. per diem interest, notwithstanding all the efforts of the Treasury Department for its relief, the liquidation became general. The presentation of bonds at the sub-treasury for prepayment of interest was very large, the interest being paid upon \$25,000,000 registered bonds, while \$32,000 was paid on coupon and \$241,000 four-anda-half per cents were redeemed. This, late in the day, again restored something like confidence, but it failed to cause a rally of anything like the proportions of the previous decline. The early London quotations were all lower, and our market responded with declines of from 4 to 8 per cent. at the opening. After 12 o'clock special attention was given Chicago Gas and Sugar Refineries, and each of them was quickly let off 6 per cent. on extremely large transactions. The recent supposed arrangement between the city authorities and the company was denied, and the opposition company, which would furnish gas at 50 cents per 1,000 feet, was said to be ready for business. At the same time the manipulation of both these properties was most apparent, but the rapid declines had their effect upon the rest of the market and everything fell away rapidly, reaching the lowest points toward 2 P. M. The extreme activity then died away and prices recovered slowly. The leaders rose about 112 per cent., while the improvement in the others was confined to fractional amounts only. North American was one of the features, and with the other two stocks mentioned was rattled off 3 per cent., rallying only a fraction. The declines, how-

souri Pacific and Canada Southern each 1 Railroad bonds were rather weak. The dealings, while they extended to \$743,000. showed no feature of interest. Among the most important changes Chesapeake & Ohio, Richmond & Allegheny firsts lost 2, at 69; Kentucky Central fours, 2, at 81; Mobile & Ohio fours, 112, at 6312; Ontario & Western fives, 214, at 9434; Western Pacific sixes, 1, at 111; Texas Pacific seconds, 1, at 381₂; Reading fours, 1, at 80; Mutual Union sixes, 1, at 104; Tennessee Coal, Birmingham division, sixes, 1, at 981₂, and South Carolina incomes, 1, at 13, while a

ever, extended right through the list, the

"bears" being most impartial in their

favors. The market finally closed quiet

TRADING AT CHICAGO.

Wheat, Corn and Oats Away Up-Hog Products Firmer.

CHICAGO, Sept. 11.-Wheat was active and the market was excited, closing 4c higher than yesterday. The opening was very unsettled and greatly excited, with sales varying 2010 in different parts of the crowd and ranged from 2@3c higher than yesterday's closing, followed by a further advance of 1@112c, or \$1.0658 for December and \$1.1012 for May, or some 614@612c above the inside figures reached Tuesday. Later the market eased off some, declining 4@ 3sc, held firm, and closed about 4c higher. The advance was attributed to the government report. The report, while expected to show a further decrease, proved rather a surprise to the most sanguine "bull." It was generally supposed that spring wheat would show a lower average, but this was hardly looked for in winter wheat, and the decline in both makes an estimated reduction in the total crop of about 19,000,000 bu as compared with the August report. Trading was very heavy, both outside and local account. Everybody wanted to buy at the start. The "shorts" covered freely, with heavy realizing on the top. On the way up the offerings were not heavy, and the short interest experienced some difficulty in executing their orders without bidding the market up. Some large lines were covered. Corn was active and excited the most of the session, price changes being sharp and frequent within an irregular range. The feeling developed was much stronger, and higher prices were the rule on all futures. due almost exclusively to the government crop report, which showed a still further decline in condition, and indicating a yield of 1,540,000,000 bushels. First trades were at 1@2e advance, without much being offered, and, under active buying from "shorts" and for investment, another bulge of 1c immediately followed. There was free realizing by local "longs" around 51c, and prices receded 7sc, rallied, selling up 17sc, ruled steady, and closed with a gain of 33424c. The business was almost entirely in May, and several large short lines were covered. The reported cold weather in the Canadian northwest helped the advance. An active business in oats was transacted at a decidedly higher range of prices. The firmness and advance in prices was due to the government crop report showing a decline in condition, during August, of 5.7 points, making a reduction and held higher. Wheat advanced 324c on unfavorable crop reports; No. 1 red, on track, \$1.01\(\frac{1}{2}\); No. 2 red, September, \$1.03\(\frac{1}{2}\); December, \$1.05\(\omega\)1.05\(\omega\)2. Corn 323\(\omega\)2c higher on unfavorable crop reports, and closed firm; No. 3 mixed, on track, 57\(\omega\)2c; No. 2 yellow, in grain depot, 60c; No. 2 mixed, in export elevator, early, 55\(\omega\)2c; No. 2 mixed, September, October, \$1.01\(\omega\)2; December, \$1.05\(\omega\)1.05\(\omega\)2, Corn 32\(\omega\)3\(\omega\)2c in grain depot, 60c; No. 2 mixed, in export elevator, early, 55\(\omega\)2c; No. 2 mixed, September, October, \$1.05\(\omega\)1.05\(\omega\)2, So. 2 mixed, in export elevator, early, 55\(\omega\)2c; No. 2 mixed, September, October, \$1.05\(\omega\)2c in grain depot, 60c; No. 2 mixed, in export elevator, early, 55\(\omega\)2c; No. 2 mixed, September, 56\(\omega\)50\(\omega\)2c on car lots and 1\(\omega\)2c on options; No. 3 white, 43\(\omega\)4c "shorts" and for investment, another bulge

in the estimated yield from a month ago of 45,000,000 bu, and from last year of 226,-000,000 bu. First sales were at 340 advance, a further appreciation of 1@112c was re-corded, and, after several small fluctua-tions, the market closed firm at about out-side figures. Mess-pork trading was quite active, and opening sales were made at 100 1212c advance. A temporary decline of 212 25c was submitted to, but later prices rallied 35040c, and the improvement was moderately well maintained to the close. Lard attracted very little attention. Prices ruled .07120.10c higher, and closed comparatively steady at outside figures. In short-rib sides there was a fair business. Opening sales were at .05@.10c advance, followed by a further improvement of .02½c. Later a reduction of .02½@.05c was submitted to. Near the close prices rallied .05@.07½c, closing at outside figures. The

Dry Goods.

NEW YORK, Sept. 11.—Business in dry goods with agents continued good, chiefly through orders by mail and telegraph. Next season's spe-cialties, as white goods, fast blacks, cotton hosiery and underwear, lace curtains, etc., were in good demand and largely sold ahead. Staple goods, especially cottons, were in steady movement and demand and the market continues in good position.

Metals.

NEW YORK, Sept. 11.-Pig-iron steady but quiet. Copper neglected; lake, October, 16.90c. Lead strong; domestic, 4.95c. Tin unsettled Straits, 22.10c.

ST. LOUIS, Sept. 11.—Lead higher, very scarce and wanted; 4.70c bid, 4,7212c asked.

for sale. Sheep and lambs quiet and unchanged. Receipts, 5 car-loads through and none for Hogs dull and lower. Receipts, 21 carloads through and 22 car-loads for sale. Me-

diums and heavy, \$4.70@4.80. INDIANAPOLIS MARKETS.

Trade Rather Slow, with No Changes in Values of Importance.

INDIANAPOLIS, Sept. 11. In all departments, on account of the heavy rains, trade has dragged a little the last three days, but this is not a discouraging symptom, as the business situation could hardly be more favorable. Farmers can now sell a larger per cent. of the corn they raise for feed, as the pastures will furnish what the corn would have had to make up but for the heavy rains which have so improved the pastures. Then the old crops are bringing a dood deal of good money, and with most people there is an easy feeling. Retail merchants are doing a good business and speak favorably of the outlook, and the wholesale men trade than that of the ten days preceding the present heavy rains. In prices, to-day, there were no important fluctuations. To say that on all lines of staple goods firm prices prevail, and indications are toward advances rather than declines, is no exag-

The local market presents the same sluggish tone of several days past, track bids

ruling as follows: Wheat—No. 2 red, .97c; No. 3 red, 91c; rejected, 77c; unmerchantable, 60c. 220.00

Chamois-skin boots for babies are simply made. Take an old shoe to get the shape Bind with narrow dark-brown ribbon and embroider the toe in shades of brown. Use white buttons. The soles are also of the chamois skin. These will wash finely. An odd and pretty hair-pin holder is made in the shape of a tiny boat. Cut two pieces of cardboard of the desired shape and cover both sides with plush or silk; then sew them together at the ends and shorter sides. Fasten tiny silken cords and tassels at the two ends, and upon one side outline a design of two crossed oars. Six inches for the lower line and three inches for the height of the boat makes a good proportion.

A shoe bag is what everyone needs, and they can be gotten up very cheaply. Use linen or figured cretonne, using for the back a piece as wide as you wish and long enough for two rows of pockets. Take two straight strips of the material used, and fasten one above the other to the back, dividing each piece into two pockets. Bind all the edges with braid, and fasten brass rings at the corner by which to hang it.

A pretty parlor dust-bag is made thus:
Take a piece of china or pongee silk ten inches wide and thirty long, double the ends together, turning one to a point. Leave an opening in the seam, which should be at the back, large enough to admit the hand to slip in the duster. Ornament the ends with small silk tassels, and suspend by ring through which the bag is drawn. A handsome photograph ease is also made of chamois leather lined with yellow satin. It is folded over about two inches at each end, thus forming two shallow pockets. On one is written in gilt letters the word "Photos;" on the other is painted a cluster

yellow moire ribbon are fastened at the ends for closing the case. A bandsome ornament for a hanging lam is made from a tiny glass tumbler two and a half or three inches across the top, half a spool of knitting silk and four yards of ribbon half an inch wide. Crochet a chain that will fit around the top of the tumbler, and fasten with slip-stitch. Crochet a shell, fasten and chain four, make a shell in the sixth stitch from the last shell, chain four, shell in the sixth stitch, and so on until the chain is full. Then fasten the last four chains in the side of the first shell. Repeat until the case is long enough; then run the ribbon through each row of open work, leaving a small piece at the top to turn under. Finish with long loops and ends at the bottom and ties at the top to hang by. Fasten under the hanging lamp for holding matches.

of wistaria leaves and flowers. Ties of

INDIANA COUNTY FAIRS.

The following is a list of Indiana county fairs. The name of the secretary is ap-Carroll, Camden, Sept. 17-20, Z. Hunt. Daviess, Washington, Sept. 29 to Oct. 4, James

DeKalb, Auburn, Sept. 8-12, Cal Husselman. Dubois, Huntingburg, Sept. 15-21, W. D. Ham-Elkhart, Goshen, Sept 23 29, Thos. A. Starr. Gibson, Princeton, Sept 8 13, &. Vet Strain. Wayne, Henry and Randolph, Dalton, Wayne county, Sept. 9-12, J. E. Dennis.

Toilet Secrets.

Tan, it is said, may be removed by mix-

ing magnesia in soft water to the consist-

ency of paste. This is spread upon the face

and allowed to remain for a few minutes, when it should be washed off with castile soapsuds and rinse in water in which has been dropped a pinch of borax. Some young women will endure the agonies of a buttermilk mask for the sake of whitening their skins. Buttermilk is also excellent when mixed with horseradish. Eruptions upon the face are as annoying as they are dis-figuring. Sometimes these red blotches are caused by an insect working under the cuticule. An excellent remedy is found in sulphur, which should be rubbed dry upon the skin each morning after it has been washed. Rub in well with the fingers and then dust off with a dry towel. A wash which is considered very beneficial is made by dissolving in one quart of water an ounce of borax and applying every night before going to bed with a fine sponge. This will smooth the skin when other remedies have been known to fail. It is a delightful toilet preparation for neck and hand, a few spoonfuls dropped into the water making it as soft as velvet. A fine wash for a rough or sun-burned skin is made of two ounces of distilled water, one ounce of glycerine, one ounce of alcohol and half an ounce of tincture benzoine. Without the water and with the addition of two ounces of prepared chalk free from bismuth, it makes a far better cosmetic for whitening the face than any one of the widely advertised "balms" sold for that purpose. If a flesh tint is desired add a grain of carmine. The following is one of the best known recipes for "glycerine" lotion: Take one ounce of sweet almonds or pistachio nuts, half a pint of elder or rose water and one onnce of glycerine. Grate the nuts, put the powder in a little linen bag and squeeze it for five minutes in the elder flower water, then add the glycerine. This lotion may be used by wetting the skin several times a day. It should be allowed to thoroughly dry into the skin, when, if it feels sticky or pasty, it may be washed off with tepid water. It is also well to be applied at night after bathing the face in water as hot as it can be borne and spraying it with cold in order produce a reaction and tightthe relaxed tissues. Pimpernel water is declared to efficacious. It is used especially for whit-ening the complexion. To prepare it you simply steep the plant in pure rain water. If you wish to arrest decay induce a healthy action of the gums and make the teeth pearly white you have only to dissolve two ounces of borax in three pints of boiling water, and before it is cold add one teaspoonful of the spirits of camphor and bottle for use. Another excellent dentifrice may be made by procuring a lump of whitening which were will account into a fine ening, which you will scrape into a fine powder until you have enough to fill a pint pot. To this add half an ounce of powdered myrrh, two ounces of camphor and a few drops of brandy. Put the whole in a wide mouth bottle and cork. If too strong of the camphor a little more whitening may be added. A dish of Indian meal is a cheap but decidedly satisfactory article, and one which, once it has found its way upon your toilet-stand will not soon be discarded for something less homely. It holds for you a

genuine surprise if you have not tried it in

the manner in which it will cleanse and soft-

National Stockman. It is not always an easy thing to take the oft-repeated advice of some writers and secure a special class of city customers.
The beginner at this in many places will find that many before him have undertaken the same thing, and some have succeeded in getting and holding a profitable trade, and have perhaps so thoroughly covered the ground as to make it impossible of very difficult for a new man to obtain even a start. People are not going to change from those who are now giving fair satisfaction to a stranger, unless there is some decided advantage in so doing, and unless one can offer something of a very superior nature it is not, as a rule, profitable to attempt to compete with men of long-established business. But a study of the situation will often bring to light a department of trade overlooked by others, and this, with fair prices and good products as an entering wedge, will in time develop into a paying business—if the man who undertakes it is determined to make it so. A great deal depends on the man in a business of this kind—one would wreck the best trade in an incredibly short time, while another might succeed in building up a new business, under adverse circumstances.

Mrs. L. Harrison, in the Prairie Farmer, rives the following good advice about not disturbing the nests of the bumble-bees: Farmers, do not burn up all the nests of the bumble-bees, for they are worth \$20 to you in fertilizing red-clover blossoms, thereby insuring a heavy crop of seeds. In Australia there were no bumble-bees of our kind, and they could not raise clover-seed there until they imported some.
